KLEIN & Co.

WAS AND IS. Strange how many "has beens" there are in the world. It seems natural for some people to refer to what they have been. They try to cover up present deficiencies by "looming" up the past. This applies with equal force to the dry goods men who are always quoting "has been" prices. was so much, is now so much, will be back to so much to-morrow. A familiar example: "Dress Goods; original price 60c, reduced to 25c." Suppose such a statement to be the truth, would you even think of buying goods where such profits are made? But the truth is they are making profits at the "so-called" reduced prices. Come right here and see better goods on which we have made no reduction. You will quickly see the "has been" folly and that the "was STOCK FARM and is" are only in the papers, while the dollars are out of your pocket. Come in and see. We will show you all about this was and is

Fine, medium and cheap millinery in great variety. Come, see our latest purchases in shapes and flowers. They are beautiful Our prices are the lowest.
